SAVE TIME - READ THIS FIRST

This organizer is designed to assist and remind you of information that is needed to prepare your tax return. The goal is to not overlook anything so you can maximize your legal deductions, comply with government reporting requirements, and avoid problems with the IRS after the return is filed.

Taxes are complicated and the rules change constantly. This organizer was designed specifically for the 2021 tax year and certain items may not apply to other years. Although care has been taken to accommodate most taxpayers' needs, please note questions that are related to issues not included here under "Questions You May Have" in Section D6.

Section Categories

To help you collect your information quickly, this organizer is organized into five general areas. Information required from:

- everyone Sections A1 A13 (Pages 2 & 3)
- those who itemize their deductions Sections B1 B11 (Pages 4 & 5)
- those not itemizing who made cash charitable contributions -Section B5 (Page 5)
- those with business or rental income Sections C1 C7 (Pages 6 & 7)
- business owners Pass-through deduction -Section D1 (Page 8).
- those who have relocated (military only), sold their home, made home energy improvements, have debt relief income, or received a PPP loan – Sections D2 – D6 (Page 8)

The instructions provided in the header of each section will help you determine if you are required to complete the information in that section. Before proceeding, please take a moment to review the purpose of the SPECIAL MARKERS used throughout this organizer.

Your tax information from the prior year is automatically transferred to this year's tax return. Therefore, not all taxpayer data and contact info needs to be recorded. The marker signifies that returning clients need only enter data in that section if it has changed since the prior year or if there is new information.

This marker notes areas where the IRS can match the entry in their computer and incomplete or incorrect information can trigger government correspondence or, worse yet, an office audit. Pay particular attention to sections or individual entries with this symbol.

This flag symbol denotes areas where a deduction or item of income is to be treated differently when computing the alternative minimum tax (AMT). The AMT is another way of computing your tax liability, which applies more restrictive limits on certain deductions and preference income. If higher than the regular tax, the AMT applies.

This marker indicates payments that may require the issuance of a 1099 if, in the course of a trade or business (including most rentals), the annual amount paid to an individual is \$600 or more. Failure to file 1099s can lead to a loss of the tax deduction for that expense and failure to timely file the forms with the IRS and furnish copies to payees can result in substantial penalties.

Taxpayers may choose between itemized or standard deductions. This page and the adjoining page are for recording your expenses, which are needed when itemizing your deductions. If you are certain that you cannot itemize your deductions for either federal or state, you can skip this page and the next one **except for B5 and B10**.

CAUTION: If you are married and filing separately and either you or your spouse itemize your deductions, then the other spouse must also itemize their deductions. The law does not allow one to itemize and the other to take the standard deduction.
